

6th Grade Elective Descriptions 2026-2027

6th Grade Christmas Showcase

The 6th grade play is a holiday celebration with music. This elective teaches stage presence, acting, singing, dancing and so much more. This is a great opportunity for students to be introduced to a large production in full costumes and acting.

Intro to Mathcounts

This course is an introduction to MathCounts to help students get excited about one of AEP's oldest and best academic clubs. As a 7th and 8th grader students will be able to compete with other students within the parish and state that also have a high level of interest in math.

Science Olympiad

Science Olympiad is a premiere STEM competition and this class gives students a sample of SciOly events. Consequently, this elective also prepares students to join our Science Olympiad team and win. Students may join the team where they will compete in 22 science events with other students from across the nation. From deciphering encrypted messages to identifying local trees, Science Olympiad is always a favorite elective!

Next Level 6th Grade Math

In Next Level 6th Grade Math, students will master skills such as ratios and rates, understanding rational numbers and writing inequalities which are all requirements for 6th grade math. This will create a solid mathematical foundation for 6th Grade Math and future subjects.

Entrepreneurship

Foundations in Entrepreneurship is a digital curriculum that features video lessons by Dave Ramsey and his team of business experts. The curriculum covers essential business topics and allows students the opportunity to develop a business idea through project-based learning over the course of the nine weeks.
